Validate your skills with micro-credentials

Micro-credentials are proof of your technical knowledge and capabilities. Gain key professional skills or project management knowledge, then get assessed to showcase your expertise.

[Micro-credentials →](#)

Expand your network at little to no cost

Access a wealth of online and in-person events, including monthly CPD webinars tailored for early-career engineers. Most of our online and in-person events are free for members.

Be recognised as an emerging talent in the profession

The Engineer of the Year awards celebrate engineering excellence across all career stages. The emerging tier acknowledges early-career professionals. Celebrate young talent by nominating yourself or others from April to July. This is your chance to be recognised and rewarded for your contributions.

Stand out with credentials

Pursue Chartered, NER, EngExec or Fellow status to signify your expertise and leadership.

Chartered →

The Chartered credential elevates your career prospects and leadership potential on a national and international stage.

Gain global recognition for your expertise, signalling your mastery and experience in the field.

[How to apply →](#)

NER →

As an engineering professional, the National Engineering Register (NER) is a way to showcase your skills and experience to employers and clients.

You don't need to be a member of Engineers Australia to apply. Highlight your competency with an NER credential.

[How to apply →](#)

EngExec →

The Engineering Executive, or EngExec, acknowledges exceptional leadership and talent in executive roles. Position yourself as a distinguished leader in the engineering community.

If you meet the criteria but haven't received an invitation, you can email to express your interest in applying.

[Express your interest →](#)

Fellow →

Attain the highest level of recognition Engineers Australia has to offer. Open to accomplished engineers with significant experience and achievements, most applicants will also hold the Chartered credential.

Elevate your influence with the esteemed status of Fellow.

Showcase your credentials

Have you already earned Chartered, EngExec, NER or Fellow status?
Share your verified digital badge on professional platforms.

The digital badges are delivered through Credly's Acclaim platform.

How to claim your badge:

1. Check your email history for your badge notification email from admin@credly.com.
2. Click the email button to accept your badge.
3. Create a free account on the Acclaim website.
4. Claim your badge.
5. Display it proudly: Add the badge to your email signature, LinkedIn and EA Xchange profile.
For assistance, follow [Credly's instructions](#).

Still working towards one of these?

Members can still include their post-nominals after their name.

Not sure what your post-nominals are? [Find out here →](#)

Tip: Expand your network

1. **Use LinkedIn QR codes to network:** Open the LinkedIn mobile app. Tap the homepage's search bar to find the QR code icon. Tap the icon and share or save your code for networking. Once a LinkedIn member's code has been scanned, you will be redirected to their profile to connect.
2. **Join Engineers Australia's online community at eexchange.engineersaustralia.org.au**

You now have everything you need

Make the most of your professional brand with this comprehensive suite of resources.
